RHInterchange: A Tool for Supporting and Analyzing Contraceptive Funding

http://rhi.rhsupplies.org

International Conference on Family Planning: Research and Best Practices

Joy Kamunyori, Program Officer, JSI

16 November 2009
Meeting the Challenge

• $200 million funding gap by 2020
• Stakeholders need to focus on coordination to:
  – Maximize use of limited resources
  – Ensure best prices
  – Avoid product wastage and stockouts
• Proactive approach to ensure reliable availability of contraceptives in the developing world

Global - Summary of Shipments

This report provides information about the quantity and value of contraceptives shipped over a specified period of time. Value and quantity amounts shown are based on when orders were shipped, not necessarily a date that corresponds to fiscal obligations or when shipments were actually received.

You may refine the data displayed by using the Refine Report area to the left. Click on the help button in the Select Report section to the left for more detail about the data in this report and how to adjust refinement criteria.

RHInterchange Basics

• Web-based

• Harmonized, up-to-date, detailed data for a particular segment of a country’s supply chain

• More than $1 billion worth of contraceptive orders and shipments for more than 140 countries
RHInterchange

- Provides critical information to assist donors and country commodity managers –
  - Support analysis and use of data for decision making
    - Improve coordination and efficiency
    - Engage in advocacy
    - Mobilize resources
    - Reduce stockouts.
